Was The Virus Ever Isolated?

2315 CB

...and if it wasn't – what does that mean about everything else?

- 1 When all the experts say the same thing, we can all be assured that what they do say is probably right. But what are we to think if the experts do not agree – and are not saying the same thing – and appear to be poles apart?

In truth, this dichotomy has existed for over two years now since the THING escaped from Wuhan. But listening to one expert speaking authoritatively on her subject, the dichotomy has existed for decades. How is it possible that experts can be so at odds with each other – and for so long? In effect what it means is this. The truth has yet to be proved beyond any lingering doubt and accepted by all those best placed to judge – and then the rest of us.

- 2 One important point to take account of, is the one which is the most worrying. There are people and organisations in this world which are more concerned with acquiring money and control, than striving for the truth and the ultimate benefit for humankind. To find evidence of this, we only have to look at the track record of Big Pharma and then all the institutions and individuals who are on the payroll of Big Pharma.

Looking back to the early months of 2020, when the THING arrived in the UK, the first people to speak out on the subject – the government's experts as they were referred to – all had heavy ongoing financial relationships with Big Pharma. In any intelligent society, the warning bells would be sounding and the structure of the government's advice to the people would be overhauled. This did not happen of course – meaning we don't yet live in an intelligent society. I do sense though, that we will in the near future, when enough people become wise to what has been going on – and not going on.

- 3 Regis Tremblay interviews **Poornima Wagh** of Santa Barbara, California, USA. Poornima holds among a raft of qualifications – all detailed in the video interview - 2 PhDs in Virology and Immunology [Dec2016] gained at the London School of Hygiene and Tropical Medicine.

What is revealed by this eminent scientist flies in the face of many of the world's scientists – and certainly government-sponsored scientists. However, Poornima is by no means a lone voice. Voices such as hers though get silenced by the mainstream and social media platforms because their free speech is not allowed - if it conflicts with what the governments determine to be the official narrative.

In **Jul 2022** – [US court rules](#) on the subject of State interference with Free Speech by the application of pressure placed on media platforms to suppress information not in line with the State's determination.

4 **Summary of the main interview discussion points – with Poornima Wagh**

The approx. time stamp is provided in the left column.

- 3.00 **Aug 2019** - Kary Mullis - inventor of the PCR test – died in mysterious circumstances – understood to be fit and healthy. He was a very outspoken critic of Dr Anthony Fauci. Kary Mullis described clearly what the PCR test was capable of, saying – it could not be used to detect a virus!
- 3.45 **Oct 2019** – Event 201 – Dry run table top exercise to plan the actions needed to handle a global pandemic – sponsored by the WEF, second largest funder of the WHO - Bill Gates - and host for the event, the Johns Hopkins University
- 5.00 **Nov 2019** – First outbreaks of the THING in Wuhan
Note: By this time Wuhan had 130,000 5G transmitter towers in use
The population was given flu vaccines around this time
- 6.30 5g is explained including the negative effects on human bodies
- 8.00 **Jan 2020** – Italy becomes first country to receive the THING
Local environment is heavily polluted and population is elderly.
Flu vaccines had been administered to many of the elderly
- 8.30 **Feb 2020** – Iran becomes the second country to show infection
- 9.00 **Mar 2020** – First cases show up in New York among the elderly
- 9.45 Elderly people in care homes were administered drugs – including Midazolam – to quicken the death of residents. The deaths were recorded as Covid deaths. [Document proves NHS staff were under orders to administer the drugs to Covid patients.](#)
Midazolam was purchased in huge quantities before the pandemic reached the UK.
- 11.00 In **2017**, 120 governments were coordinating a response to a coming pandemic evidenced by the worldwide purchase pattern of PCR test kits in preparation. [The purchases by the UK were evidenced by a WITS report but not admitted to by the government](#) .
- 13.00 **Mar 2020** – WHO declared worldwide pandemic

- 17.00 Novel virus was apparently identified by sequencing a genome in a form that made no scientific sense
- 18.45 Videos of people dying on the street were released in what appears to have been an attempt to scare people
- 20.30 Death stats indicated that there were fewer deaths in 2020 than there were in 2019.
This situation has continued in subsequent years
- 30.00 **Feb 2020** – Indian scientists discovered that the sequenced genome shared with the world by the Chinese scientists – using unconventional methodology to arrive at that sequencing - had uncanny similarities to HIV.

The American Microbiology Association forced the Indian researchers to retract their paper on the subject - rather than initiating a debate
- 32.00 Virus Isolation, Purification, Characterisation and Causation – the process by which the Gold Standard of Proof determines that a virus or bacteria exists.
So, does the SARS Cov2 virus exist – causing Covid-19 symptoms?
NO – a fat big NO is the determination.
The proof follows.

Not one institution, organisation or laboratory anywhere in the world has managed to isolate the SARS Cov2 virus. Not one - apparently!
- 35.00 Christine Massey requested proof of the virus from the Canadian government. Answer – No such records exist!
- 36.30 Same response was received from the German government
- 38.00 Same responses from Australian and New Zealand governments
- 39.00 The CDC said to Christine Massey the same thing – No record
- 40.00 The media have buried these facts
- 42.00 Does all the above amount to fraud? YES – no doubt!
- 42.30 No virus has been properly isolated for decades.
That includes the so-called Polio virus
- 44.00 Polio was not caused by a virus – but by poisons – including DDT
- 44.45 The Polio vaccine even caused Polio
- 46.00 Since 1952 virologists have used methods to isolate viruses which are fraudulent in nature.
The practice has used bizarre processes to eventually isolate *something* which no real scientist with integrity could accept as being a perfectly identified virus - by standard definition.
- 51.00 The above process is assessed as fraudulent. The assertion is that this is the step process for Big Pharma to produce a vaccine for whichever virus they say they are looking to protect people from.
- 53.30 Poornima explains the correct way to isolate a virus, a bacteria or fungus.

- 58.00 Poornima explains the causation process – defined by a test called the Four Koch's Postulates.
1. Microorganism must be found in abundance in organisms suffering from the disease
 2. The microorganism must be isolated from a diseased organism
 3. The culture microorganism should cause disease when introduced into a healthy organism
 4. The microorganism must be re-isolated from the diseased experimental host and identified as identical to the original causation agent.

A hugely logical process to prove causation and accepted as the gold standard since before 1900.

However, virologists do NOT use this process any more.

One has to ask why?

1.02.00 Now virologists use a different process called River's process

1.03.00 Poornima explains what happened when her lab received \$1.5M funding from the NIH to isolate the virus in **Apr 2020**.

1.04.00 The isolation process used was the one Poornima describes as the ONLY correct method to isolate a virus – rather than the fraudulent method so commonly used by Big Pharma.

The result of the process – which was conducted three times for certainty - failed to identify a virus.

1.07.00 The findings were shared with other universities and the CDC. A small number of university labs replicated the process and got the same results. No virus found!

1.08.30 The CDC pressured Poornima's lab to lie about the results which had been achieved – to say YES, we have isolated the virus – when of course they hadn't!

The CDC then threatened Poornima's lab.

1.1000 Poornima asked the CDC to provide samples where they had isolated the virus. The CDC failed to supply the samples requested.

1.1045 In **Apr 2021**, Poornima's lab was raided by the FBI. Everything was confiscated – although some material was saved.

1.11.00 Two members of staff died in suspicious circumstances where the cause of death was recorded as suicide.

1.11.30 Conclusion: There is NO VIRUS

1.12.30 List of doctors and scientists considered to have integrity, See below LINKS.

- 5 The account described by Poornima is both very interesting and disturbing. It is alarming to learn that there is significant and worrying disagreement among scientists about the correct way to test and to analyse samples

It doesn't settle the argument about the virus – SARS Cov2 – existing or not. What it does, however, is raise some serious questions about a host of things. They include:

1. Has the virus been isolated by anyone?
2. Who has said that the virus has been isolated?
3. If lies have been told about the isolation – who is to blame?
4. What purpose is served by lying about the isolation?
5. If the virus does not exist – what has caused the Covid-19 symptoms?
6. What is the reliability of the computer derived genome of the virus?
7. Why is there disagreement about isolation methods after so long?
8. What is the truth about Kary Mullis' demise?
9. Is what Mullis said about the limitations of his own PCR invention true?
10. Why were governments purchasing Covid-19 test kits as early as 2017?
11. What did governments know about the pandemic years before 2020?
12. Why did the FBI raid Poornima's lab and confiscate all the contents?
13. What is the truth behind the Polio story being caused by poisons?
14. Why do so many influencers have connections with Big Pharma?
15. Is there reason now to explode the whole story of Big Pharma?

6 In reality, these questions do not even scratch the surface. With the thought of each question a whole series of further questions come to mind.

The thing is this.

Who can people trust to answer these questions if they were tabled anyway? It appears that the media have been orchestrated to toe the government line. It appears the government/s have secret agendas they are following. It appears that the scientists are at odds with one another.

I will leave this question for people to ponder – as to who can be trusted? The situation clearly underlines that we certainly do not yet live in an intelligent society. These questions would never arise in such – because there would not be any cause to raise these questions in the first place. That's because the truth would be arrived at intelligently and with full and total transparency.

7 Perhaps the whole Covid THING is humanity's opportunity to grasp – which if grasped will have the effect of ascending us all to that wonderful sounding Intelligent and Grown-Up Society – where truth is a given – a foundation stone upon which everything is based.

Now that would be something. It would be something that would justify the pain and the loss which we have all suffered – in one form or another – to one level or another – over the last 2plus years of the THING!

Thinking about it – the realisation of such a society – and one to be realised in our time – would be truly magnificent. And considering that realisation – all it would take is enough people coming together - in thought and mind – to choose it. Once chosen it would happen like a miracle. It would happen like the falling of the Berlin Wall in 1989 – another miracle!

The fall out which would follow – without any doubt – would give rise to an untold number of legal cases and eventual prison sentences – I fancy!

CONNECT'S Maxim and Oath

Connect is only interested in finding and sharing the TRUTH.
In search of that TRUTH, we only pose questions – we have no answers.
