Meeting: ROBIN UZZELL

DRAGONFLY PICTURES

2376 A

Life is always an interesting story and so often, fascinating too. For Rob, his life began to take shape and chart a course whilst at school. Like for so many of us, school was heavily boring for Rob - not seeing the point of it all. The experience has not been listed in his life's standout memories. It did though begin to mould the person he is today.

Rob has charted a path through life - to date - looking for meaning and looking for answers - the answers he was never going to gain at school. He is fascinated by foreign cultures and the lessons to be learned from them. Not least, Rob has a passionate interest in learning from the world's elders who are the depositories of ancient wisdom - as relevant today as in the past.

In pursuit of these answers and the people holding that wisdom, Rob set foot on his life journey travelling the globe and - rather handily - went equipped. For what general education did gift to him - despite his protestations and reluctance to always conform - was a pathway. Rob went on from school to gain a media degree at Falmouth University.

How odd life can be though, as once that degree was attained, he put aside the skills learned in media and became a teacher - of all things! He taught English language to school students in South Korea - a clever move as it turned out. Among other things it was a funding strategy - a strategy to steer him further to his goal in life - despite not quite knowing what it was.

And now that goal has emerged front and centre on Rob's stage. Now with his own media business - Dragonfly Pictures is now his own medium, to document, inform and shall I say educate, his listeners and watchers about the people of the world. And the single most Important message for all his audience - is Love, Unity and Connection.
